

Personal Traffic Portfolio

Steps To Drive Massive Traffic Tips

1) Find keywords with Goggle Adword Keyword Tool and write an article based on the keywords

- Best with less than 2000 competitors. You can find that by typing allintitle: keyword to check the number of competitors. These are your real competitors targetting for the keyword you are aiming for

- Check the number of inbound links of your competitors' by typing link:http://www.mydomain.com in yahoo search engine

2) Indexed the page into Google page by Digg it

3) Now start your offpage optimization by carrying out the following strategies:

Internet Newbie Videos

- a) Social bookmarking
- b) Squiddo lense
- c) Profile pages with your signature link
- d) Blog comments on blogs
- e) Press release
- f) Article Marketing
- g) RSS Marketing
- h) Video marketing
- i) Podcast
- k) Forum
- L) Viral Mechanism Methods

I hope this simple diagram will gives you some ideas on driving traffic to your website though it appears a lot of work involved. I will discuss this in greater details. In my next post, I will show you how to make your task easier using some of the free and paid tools available.

Time to get your hands dirty and drive traffic to your website.

Cheers,

Jerry
